Absolutely.

Firestone: due to NHPA issues not foreseen until the SHPO replied earlier this month to our consultation offer, the final permit will not be issued until November.

Caste Rock: Permit will be issued NLT than 9/30/20.

Dewey Burdock III/V: due to OST consultation issues, time needed to sign on to the NHPA Programmatic Agreement with NRC, Response to Comments workload, etc., we expect to issue the final permits some time next month. We are working with Sarah and Darcy to establish a firm timeframe that Greg will support.

Spotted Hawk: OGWDW let us know we would have to carry this app into FY 21 as backlogged even though we have no control on the fate/timing of BIA appeal hearing/ruling. We may ask the applicant to withdraw and if they don't, consider denial due to lack of financial assurance, etc. Will need further discussion with you and Darcy.

Riverton 36-3 Well: no further resolution of issues until the draft permit is issued some time in FY 21.

ECCV: Draft permit likely not issued until after 9/30/20 but expect few comments on this ASR project so expect to go final in November.

Winona Inn: will become backlogged but expect the draft permit to be issued in October.

Subject: Q on UIC permit status For ELMS R8 business review
Importance: High

Douglas, so I'm ready for Monday's R8 monthly business review can you provide me a very brief update today on the status and prognosis for backlogged UIC permits, as things may have changed from our 9/3 WD business review? My notes from that meeting indicate:

- Results for Backlogged UIC Permits
- **4 final this month, going green in Oct:**
- **I Firestone**
- **V Castle Rock**
- **II and V Dewey Burdock**
- Spotted Hawk - expect no news until fall
- Riverton expect to issue draft this month. Address issues thru com period; will stay backlogged.
- Cherry Creek will go into next year.
- Not yet backlogged: Winona Inn; backlogged on 10/22
